What is Computing Research? How Can I Participate?

Why participate in research opportunities?

- Earn stipend, scholarship, or credit
- Think through (and even solve!) challenging problems
- Gain knowledge and expertise
- Work with accomplished researchers
- Prepare for graduate school
- Learn life-long skills
- Build professional relationships
- Apply and discover new ideas and methodologies
- Improve your communication abilities
- Contribute to a specific area of knowledge

How do you find research opportunities?

Ask your professors, advisor for opportunities. Visit research groups in your department.

Search for “Undergraduate Research Experience” on the web.

Here’s just a sample of what you’ll find:

- CRA-W/CDC Undergraduate Research Programs: CREU and DREU, see back of this page
  http://cra.org/cra-w/
- National Science Foundation Research Experiences for Undergraduates (REU):
  http://www.nsf.gov/crssprgm/reu/reu_search.jsp
- Office of Naval Research (ONR) Programs for Undergrad and Grad Students:
  http://nreip.asee.org/
- NSERC USRA in Canada: inquire with your department to find out how it works at your university.
- Research internships for Undergrad and Grad Students at INRIA (the French Institute for Research in Computer Science):
