

NSF LEVEL UP AI

Shaping the Future of AI Education

AI is transforming the world, and NSF LEVEL UP AI is working to ensure all students can access quality AI learning opportunities and thrive.

Join educators, researchers, and professionals in building a shared vision for expanding capacity and access to AI education. Together, we'll create strategies to expand AI programs across institutions and ensure access for students of all backgrounds.

Get Involved in This Community-Led Effort

Virtual Roundtable Discussions

- Interactive 1–1.5 hour sessions to share ideas and insights.
- Open to participants nationwide, no travel required.

In-Person Workshops

- Regional gatherings to co-create action plans for AI education.
- Insights from roundtables will shape agendas and strategies.

Our Focus Areas

- **Expand Capacity:** Build robust AI curricula and the infrastructure to support high-quality education.
- **Promote AI for All:** Ensure access to AI education for all students from all communities.
- **Foster Collaboration:** Develop actionable strategies through a community-led effort.
