MORNING CHARGE
BREAKOUT TOPICS

1. Addressing the Social Causes of Health Disparities in Intervention Design
2. Selecting Theories for Disparity Populations
3. The Theory – Design Relationship
4. Creating and Extending Theories to Address Disparities
5. Science of Recruitment and Retention
6. Strategies for Engagement
   1. Study Design, Research Process, with the Community
   2. Designing systems for use until goals are met
7. Building Better Feedback Loops
   1. Data to theory
   2. Data to participant
   3. Data/participant to researchers
8. Optimization of Interventions (Identifying the Sweet Spots)
9. Ethics of Capturing Context
10. Evaluating Health Equity Impacts
• What we think we know about this topic?
  – Who knows this?
  – How do they know it?
• What do we not know (i.e., generate research questions)
• Who or what do we need to help us answer these topics?
  – Beyond funding

LUNCH
AFTERNOON CHARGE: DEEPER EXPLORATION
POST IT VOTING
• Description of the problem
• Description of the significance of the problem
• How would we know if we were making progress on this problem? What would success look like?
• What are the critical barriers that stand in the way of this success?
• Who needs to be involved in solving the problem? (e.g., disciplines, areas of expertise, funders, communities, nonprofit organizations, industry, patients)
  – How will they work together in a feasible and sustainable manner (e.g., benefits, needs)?
• How can research contribute to solving this problem and achieving success?
• What research questions needs to be asked?
• What research methodologies and/or novel techniques are most important in addressing these questions?
