

# CCC Assured Autonomy Workshop #2

## Ethics, Policy, and Societal Impact

Cara LaPointe, Co-Director of the Johns Hopkins Institute for Assured Autonomy

February 21, 2020

# Autonomous Systems as Trusted Contributors to Society

# Mission of the Institute for Assured Autonomy (IAA)

Operating in partnership with industry, government and academia, the IAA ensures the safe, secure, reliable, and predictable integration of autonomous systems into society by covering the full spectrum of research and application across the three pillars of technology, ecosystem, and policy and governance.

**Technology**

**Ecosystem**

**Policy and Governance**
