The Heidelberg Laureate Forum (HLF) annually connects promising young researchers in mathematics and computer science with the top scientists in their fields. For one week in late summer, the Heidelberg Laureate Forum Foundation (HLFF) invites the recipients of the **Abel Prize, Fields Medal, Nevanlinna Prize** and **ACM A.M. Turing Award** to join 200 carefully selected young researchers. The HLF's focus is to provide an informal atmosphere where the most accomplished minds of mathematics and computer science thoroughly interact with the brightest minds of the next generation.
