

Senior tenure-track/tenured faculty positions at Northeastern University

The Khoury College of Computer Sciences at Northeastern University has multiple tenure-track/tenured faculty positions at the rank of Associate Professor or Full Professor, beginning 2023-24. Applications will also be considered for the 2024-25 academic year. We welcome exceptional candidates in all areas of computing. Candidates must have an excellent track record in research and an established history of grant support or industry research, with the potential for strong leadership in their research field. Research excellence is the top-most priority.

The tenure home will reside in the Khoury College of Computer Sciences, with a potential joint appointment with another Northeastern College, to be determined in consultation with the person filling the position.

Northeastern University is a global university system. Positions will primarily be on the Boston campus but may be available at any of our 14 campus locations. In addition to Boston, Khoury College currently offers programs in Portland (ME), San Francisco, Seattle, Silicon Valley, and Vancouver, and is launching new programs in Arlington (VA) and Oakland in 2023.

Responsibilities

Faculty members at Northeastern are expected to develop independent research programs that attract external funding; teach courses at the graduate and undergraduate level; supervise students and postdocs in their area of research; and participate in service to the department, university, and discipline.

Qualifications

Candidates must hold a PhD in Computer Science or a related field from an accredited institution by the appointment start date. We encourage applicants from a wide range of backgrounds, including academia and industry.
