

Yeshiva University®

Assistant Professor, Computer Science

The Department of Graduate Computer Science and Engineering at Yeshiva University's Katz School of Science and Health invites applications for a tenure-track assistant/associate professor in **Artificial Intelligence/ Machine Learning, Data Analytics, Cybersecurity, or Computer Science** for its graduate programs.

This is an opportunity to pursue innovative research and development in these areas in a range of applications and to collaborate with faculty across disciplines, including biotech and health, IoT, mathematics, economics, and more.

The Katz School of Science and Health is Yeshiva University's flagship school for STEM. We are research scientists, tech builders and patient-centered clinicians working on problems that matter.

Salary Range: \$65,000-\$175,000.

EOE, including disability/vets.
