

Yeshiva University®

Clinical Assistant/Associate Professor and Capstone Coordinator

The Department of Graduate Computer Science and Engineering (CSE) at Yeshiva University's Katz School of Science and Health is seeking a full-time faculty member to work in our STEM programs.

Reporting to the Chair, this position will be responsible for the development of course syllabi; instruction, mentorship, and leading the development and coordination of STEM student capstone/internship projects; evaluation of course success and student learning outcomes; student recruitment and retention; and University, School, and Departmental committee service.

The Katz School of Science and Health is Yeshiva University's flagship school for STEM. We are research scientists, tech builders and patient-centered clinicians working on problems that matter.

Salary Range: \$60,000-\$180,000.

EOE, including disability/vets.
